### AboutUs

Since 1989, Unicomp Software Pte Ltd has been providing software development and system integration services to organizations of many sizes. As a company with in-house software developers, we combine the latest development tools with an ever changing technology, to provide quality software development services that meet the demand of industry trends.

With rich experience, innovative ideas and proven approaches, our team of experienced consultants, has helped hundreds of our delighted clients to make a smooth transition from the way they operate their business today, to how it should operate in the competitive environment of tomorrow, so that they can gain a competitive and strategic advantage, by exploiting the latest technology.

### MISSION

Our mission is "To Enable Organizations-Small, Medium & Large to face the Challengers of the Future, by Improving Productivity, Increasing Efficiency, thus further enhancing their Customer Service Delivery, by exploiting the Technologies of Tomorrow"

### CORE COMPETENCIES

In today's rapidly changing business environment, corporate downsizing and the continued technology shift towards microcomputer-based systems are creating a growing demand for quality services. In fact, the fastest growing segment of the Information Technology Industry, is not software or hardware, but its professional and System Integration Services.

Our clients have evaluated us by the quality of our Post Sales Services, and our success has been the ability to constantly satisfy their evolving needs, by providing the right products with the best services.

Unicomp strengths lie in delivering a full range of services that give you the strategic competitive advantage in a dynamic business environment. Our core competencies are:

- ❖ System Integration
- ❖ IT Consultancy & Software Development Services
- ❖ ORACLE Platform Development
- ❖ LAN/WAN Network
- ❖ Microsoft SQL/ Windows VB Net
- ❖ Server Clustering
- ❖ E-Commerce & Internet Based Solutions
